navjotsrmtpl.github.io/navjot17_portfolio

PROFESSIONAL SUMMARY

Results-driven Senior Fullstack Engineer with proven expertise in React, Angular, and Node.js. 8+ years building enterprise-grade web and mobile applications for SaaS, fintech, and global platforms. Specialized in React component architecture, state management (Redux, NgRx), and Node.js REST API development. Led cross-functional engineering teams, delivered 25-35% performance improvements, and reduced development timelines by 40% through scalable component libraries and optimized architecture.

Frontend Focus: React, Next.js, Angular, TypeScript, Chakra UI, Angular Material | Backend Focus: Node.js, Express, REST APIs | Databases: MongoDB, MySQL | DevOps: AWS, Docker, CI/CD | Payment Integration: Stripe, Razorpay, PayPal

CORE COMPETENCIES

Frontend Technologies: React, Next.js, Angular (4-21), TypeScript, JavaScript, HTML5, CSS3, SCSS, React Native, Ionic

React Ecosystem: React Hooks, Context API, React Router, React Query, Tanstack Query, Redux, Redux Thunk, Redux Saga, React Native

Angular Ecosystem: RxJS, NgRx, Angular Material, Standalone Components, Dependency Injection, Angular Forms, Angular CLI

State Management: Redux, NgRx, Context API, Vuex, Tanstack Query, React Query, Redux Persist

UI Libraries and Styling: Chakra UI, Angular Material, Kendo UI, Tailwind CSS, Bootstrap, Material Design

Mobile Development: React Native, Ionic Framework, Cordova, Capacitor, Mobile-first Responsive Design

Backend Development: Node.js, Express.js, REST API Design, JSON, HTTP, Middleware Architecture

Databases: MongoDB, Mongoose, MySQL, SQL Server, Database Design, Query Optimization, SQL

Cloud and DevOps: AWS (EC2, S3, Load Balancer), Docker, Docker Compose, CI/CD Pipelines, GitHub Actions, Azure DevOps

Development Tools: Git, GitHub, Jira, NPM, Webpack, Vite, Jest, Vitest, Karma, Jasmine, ESLint, Firebase

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE ENGINEER | S&P Global | Gurugram, India | May 2024 - Present

React | Next.js | Angular | TypeScript | Node.js | Chakra UI | Kendo UI | REST APIs | AWS | Jest | GitHub Copilot

Led comprehensive frontend rebranding of WSO Administrator and WSO Insight platforms using React and Next.js, impacting global financial markets infrastructure serving thousands of traders

Architected scalable React component library with reusable patterns, reducing feature delivery time by 40% and enabling consistent design across multiple teams and products

Optimized React application performance by 40% through lazy loading, code-splitting, tree-shaking, and Next.js rendering strategies, improving user experience for mission-critical financial tools

Integrated REST APIs using Tanstack Query (React Query), implementing data fetching best practices, caching strategies, and error handling, reducing network calls by 30%

Designed and implemented Node.js backend services for real-time data processing and API endpoints, ensuring 99.9% uptime for critical financial applications

Leveraged GitHub Copilot and Claude AI for code generation, unit test automation, and legacy code refactoring, accelerating team velocity and reducing manual coding time by 25%

TEAM HEAD & FULL STACK DEVELOPER | Wattmonk Technologies Pvt. Ltd | Gurugram, India | Jun 2020 - May 2024

React | Angular (8-14) | React Native | Node.js | Express | TypeScript | MongoDB | MySQL | REST APIs | Stripe | Razorpay | Firebase

Managed team of 6+ developers; implemented code review processes, conducted sprint planning, and achieved >95% on-time delivery across web and mobile platforms

Architected end-to-end React and Angular applications for Wattmonk web portal, serving thousands of solar industry users with complex feature sets and real-time updates

Built React Native mobile applications (iOS and Android) using Expo and native modules, increasing cross-platform code reuse by 70% and reducing development time

Developed Node.js backend services and REST APIs with Express, MongoDB, and MySQL, implementing authentication, authorization, and payment processing for Stripe and Razorpay

Integrated third-party services: payment gateways (Stripe, Razorpay, PayPal), real-time messaging (CometChat), and AI features (ChatGPT), expanding platform capabilities

Implemented CI/CD pipelines and Docker containerization, reducing deployment errors by 60% and enabling multiple daily releases

FRONTEND DEVELOPER | STPL Pvt Ltd (CBRE FSELITE) | Lucknow, India | Aug 2018 - Jun 2020

Angular (4-6) | Ionic Framework | TypeScript | HTML5 | CSS3 | Angular Material | REST APIs | Firebase | Azure DevOps

Developed CBRE FSELITE Connect hybrid mobile and web application using Ionic Framework and Angular, published on Apple App Store and Android Play Store

Delivered end-to-end features from design to production deployment, managing production releases and resolving client-reported issues within SLA

Collaborated with cross-functional teams (Design, QA, Backend, Product) to ship high-quality, stable applications on schedule

KEY ACHIEVEMENTS & METRICS

Improved application performance by 25-35% through lazy loading, code-splitting, and rendering optimization

Reduced development timelines by 40% through reusable component libraries and standardized patterns

Led and managed engineering teams of 5+ developers with >95% on-time sprint delivery rate

Achieved 99.9% application uptime for mission-critical financial platforms serving thousands of concurrent users
Decreased network calls by 30% through Tanstack Query implementation and caching strategies
Reduced deployment errors by 60% through CI/CD pipeline automation and Docker containerization
Increased mobile code reuse by 70% using React Native cross-platform development
Accelerated coding velocity by 25% using GitHub Copilot and AI-powered development tools
Successfully integrated 10+ third-party APIs and payment gateways with zero production incidents
Maintained 100% code coverage on critical frontend components using Jest and Vitest

EDUCATION

B.Tech with Honors in Computer Science | Maharana Pratap Engineering College (AKTU) | 2013-2017 | GPA: 7.9/10

Intermediate (ISC) | Dr. Virendra Swarup 21st Century School | 2012-2013 | 82%

High School (ICSE) | Dr. Virendra Swarup 21st Century School | 2010-2011 | 80.5%

TECHNICAL EXPERTISE SUMMARY

REACT & FRONTEND: React, Next.js, React Router, React Hooks, Context API, React Query, Tanstack Query, Redux, Redux Thunk, Redux Saga, Jest, React Testing Library, Webpack, Vite, React Native Expo

ANGULAR & TYPESCRIPT: Angular (4-21), RxJS, NgRx, Angular Material, Angular Forms, Angular CLI, Reactive Forms, Dependency Injection, Standalone Components, Signals, Vitest, Karma, Jasmine

NODE.JS & BACKEND: Node.js, Express.js, REST API Design, JSON, Middleware, Request/Response Handling, Async/Await, Callbacks, Promises, Error Handling, Authentication, Authorization

DATABASES & ORM: MongoDB, Mongoose, MySQL, SQL Server, SQL Queries, Database Design, Schema Design, Indexing, Query Optimization, Transactions

STYLING & UI: CSS3, SCSS, HTML5, Chakra UI, Angular Material, Kendo UI, Tailwind CSS, Bootstrap, Material Design, Responsive Design, CSS Flexbox, CSS Grid

CLOUD & DEVOPS: AWS (EC2, S3, CloudFront, Load Balancer), Docker, Docker Compose, CI/CD (GitHub Actions, Azure DevOps), Infrastructure as Code, Linux, Nginx

DEVELOPMENT TOOLS: Git, GitHub, GitLab, NPM, Yarn, Jira, Azure DevOps, ESLint, Prettier, Visual Studio Code, Chrome DevTools, Postman, Firebase

INTEGRATIONS: Stripe, Razorpay, PayPal, Firebase, CometChat, ChatGPT, OpenAI API, Claude AI, GitHub Copilot, Third-party REST APIs

SOFT SKILLS & METHODOLOGIES

Team Leadership, Agile Scrum Methodology, Sprint Planning, Code Review, Technical Architecture, Problem-Solving, Analytical Thinking, Communication, Mentoring, Cross-functional Collaboration
